Dear HPS students and staff,

Please see below the announcement of an event organised by PoS colleagues in Tilburg and RU, and clearly of interest to us

You can contact Matteo and/or Nina for further information.

All the best
Federica

Ciao Federica,

Spero tutto bene!

Nina Poth (in cc) and I are organizing a workshop on learning and reasoning aimed at junior researchers in the country. If you think some members of your dpt might be interested in participating or presenting, could you please share the call below with them?

Thanks, and have a good day!

Matteo

+++

Dear colleagues,

We are organising a one-day workshop at Tilburg University in collaboration with the OZSW on the theme of learning and reasoning in humans, animals, and machines, broadly construed. We aim to bring together junior researchers from across the Netherlands working in philosophy of cognitive science, philosophy of science, and related areas to share their research, exchange ideas with peers and build research connections across different areas and approaches to this theme.

Details

Date, time: 14 January 2027, 11:00-16:30

Venue: Tilburg University, Mindlabs room 1.27

Format: In person (no online streaming)

Registration opens: 15 October 2026

Registration closes: 11 December 2026

The programme will include a keynote address by prof. Jan-Willem Romeijn (Groningen), and four or five contributions (20 minutes talk + 10 minutes Q&A) by junior researchers. We would be very grateful if you could share this announcement with PhD students, postdocs and relevant ReMa students in your group, who might be interested in participating or presenting. Needless to say, it would be great if you could participate too!

Registration for participants consists in sending a short e-mail (e.g., "I would like to participate"), at the very latest by 15 December, to

M.Colombo@tilburguniversity.edu<mailto:M.Colombo@tilburguniversity.edu>

For those interested in presenting their work, please send Nina and Matteo a 200-word abstract and a title by 15 November 2026, to ninalaura.poth@ru.nl<mailto:ninalaura.poth@ru.nl> and M.Colombo@tilburguniversity.edu<mailto:M.Colombo@tilburguniversity.edu> Earlier submissions are very welcome.

We aim to notify presenters by 22 November 2026 and to announce the final programme of the workshop in early December 2026.

Many thanks in advance, and we hope to see you in Tilburg!

All the best,
Matteo & Nina
